

# CLESSIDRA

*Massimiliano Raggi*

KAYROS

KRONOS

La lampada da tavolo Clessidra, disponibile nelle versioni Kayros e Kronos, filtra e nello stesso tempo contiene la luce attraverso l'impiego di vetri a specchio metallizzati sottovuoto. Doppia accensione per un duplice utilizzo: luminoso ed emozionale. Disponibile nelle due finiture iconiche di Contardi: bronzata, sia nella parte superiore che inferiore, o cromata nella parte superiore abbinata al nickel nero nella parte inferiore. In entrambe le finiture, la parte superiore è verniciata bianco per una maggiore riflessione della luce.

*Clessidra table lamp, available in Kayros and Kronos versions, filters and at the same time contains the light through the use of vacuum metallized mirror glasses. Double switch for a dual use: bright and emotional. Available in Contardi's two iconic finishes: bronzed both in the upper and lower parts or chromed in the upper part combined with black nickel in the lower part. In both finishes the upper part is painted white on the inside to better reflect the light.*

metallizzato cromo  
*Upper glass: chrome metallized  
blown glass*

Vetro inferiore: soffiato  
metallizzato cromo nero  
*Lower glass: black chrome  
metallized blown glass*

## NOTE:

1. I vetri della collezione Clessidra sono prodotti tramite un processo di metallizzazione che consiste nella disposizione in alto vuoto di micro particelle di metallo sulla superficie del vetro. Si tratta di un trattamento di elevata qualità, ma altrettanto delicato. Piccole bolle d'aria, strisce di luce, o colorazione e forma lievemente irregolari garantiscono l'artigianalità della lavorazione, da considerare come caratteristiche intrinseche di questo vetro soffiato realizzato a mano e non sono da considerarsi difetti.  
2. Per la pulizia della lampada non utilizzare prodotti abrasivi, né solventi, né alcool. Usare solo un panno morbido con acqua evitando eccessiva frizione.

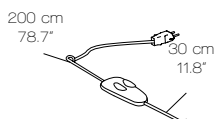

## NOTES:

1. The glasses of Clessidra series are produced with a very delicate process of glassblowing and finishing. For this reason characteristics such as air bubbles, stripes or slightly uneven colour or shape may appear as a confirmation that these are real craftsmanship products. These characteristics are not to be considered as flaws, but as intrinsic features of the blown and handmade glass of the highest quality and uniqueness.  
2. Do not use abrasive cleaners, solvents or alcohol for cleaning. Use only a soft wipe with water without excessive rubbing.

## CAVO - INTERRUTTORE / CABLE - SWITCH
