**“While dad was giving a  
shape to light,  
I was learning how to shape  
a company”**

Achille Carcano, Owner

Paola & Achille Carcano

## 1.Our history, our family

We are a young company with a long history. Our first Contardi branded product dates back to 2006, thereafter the company began to constantly grow year after year, and the expansion has consolidated in the last six years. Contardi is now a well-established company headquartered in the Brianza district - the beating heart of the “Made in Italy” manufacturing. Before then, Contardi had a 30-year history of successful collaborations, providing its lighting expertise to some of the most iconic companies on the Italian design scene. It all started from the creative genius of Michele Carcano, who had a real passion for prototyping and worked

for Stilnovo – one of the first companies to build a reputation in lighting design. Fast-forward to today, and Michele Carcano’s heirs – Achille and Paola Carcano – have taken the reins of the company, supported by a very close-knit team, more similar to an extended family working together, with some of its members having been part of it since its inception. Contardi is now synonymous with service, quality and flexibility, having become a reliable reference point for architects, interior decorators and lighting consultants who are in search of original and well-designed decorative and functional lighting as well as an unparalleled expertise and service.

### 1a. Contardi USA

Contardi’s business path led the company to enter the US market as early as 2015. Today this market is of great importance for the brand. With the opening and presence of the American branch, Contardi responds in real time to the needs of this market.

The American branch, which is ETL certified, guarantees our brand a direct participation in one of the key regions of the world, with a strong presence in e-commerce.

2. Contardi Contract Division

We work closely with architects, interior decorators and lighting designers, so we are able to catch and translate the designer's concepts, meeting the client's needs and the budget of the project. Hotels, restaurants and yachts become stages where the versatility of products blends perfectly with the surroundings, independently from the style and the characteristics of the project itself. Contardi Contract Division offers a dedicated service on customer requests:

**BESPOKE  
MODIFIED STOCK  
VALUE ENGINEERED**

The Hoxton, Rome

Shangri La, Hong Kong

Mayfair Townhouse, London

The Address Downtown, Dubai

Lutetia Hotel, Paris

The Carlyle, New York

3. Tailoring and avant-garde technology

Internationally renowned as the “Couturier of Contemporary Lighting”, we have earned this reputation over the years for our skilful sartorial approach, for the variety of materials used, as well as the elegance of the finishes combined with the most innovative LED technology, all designed to ensure that the quality of the lighting responds to contemporary requirements.

4. Flexibility

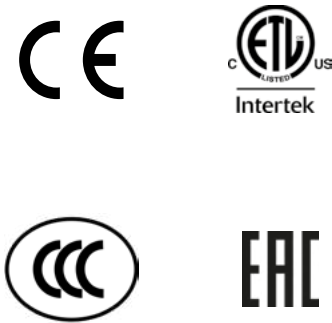

Flexibility is our strength and what distinguishes us from the rest. Style variety does not mean a lack of identity though. On the contrary, it means a capacity to interpret different styles and to adapt to different settings.

5. Sustainability

Our commitment to an increasingly sustainable business has emerged over the course of the last few years and, after obtaining some great achievements, we are now ready for a new challenge to further reduce our environmental impact with a clear set of targets, which constitute our Pole Star in terms of sustainability.

6. Certification

Today, a Brand's presence on the international market requires the ability to provide certifications. Contardi responds to this need by investing resources and expertise. Our company is ETL certified for the American market, and CCC for the Chinese market. Thanks to the internal technical office, Contardi is able to satisfy requests for certifications such as SABER for Saudi Arabia, CoC for Morocco, and EAC for the Russian market.

DESIGN

### 1. Timeless design created in Italy

---

We at Contardi interpret the outdoor collection as a way to bring the interior design to the open-air. The idea is to keep the same decorative and qualitative characteristics of the indoor products without forgetting the pragmatic aspect, specifically the intended use. The use of high-quality decorative materials and fabrics is successfully combined with finishes and regulations required for the highest standards, such as the IP65 and the "Marine Grade".
